(Zentraleskonstruktionsbuero) (ZKB) of AEG, Treptow, East Berlin, there will be no real change in the Soviet control of the SAG organization after 1 January 1954. For the last year and a half the ZKB's of the large SAG institutions have been separately regulated by the Soviets, who have taken pains to see to it that the relations between the main plant and the branch office of the ZKB were not too close. It is therefore alleged that, while the SAG factories will be returned to the East German economy, the special bureaus, which cannot actually be described as factories, will be subordinated either to a Russian Feldpostnummer (FPN) (APO), the Soviet Trade Delegation, or to the DIA-Masch. In any case, all projects at hand are for the Russians and will not be completed by the end of 1953.
